RULES

- **Topic:** Any innovative idea related to computer science can be presented.

- **Group Size:** Please adhere to the formality of our event by constituting groups with a minimum of two and a maximum of three members. Participation is limited to the first seven registered teams.

- **Time Allocation:** The total presentation time is set at 20 minutes, including the introduction, main presentation, and conclusion.

- **Question and Answer Session:** After the presentation, there will be a 10-minute Q&A session for the audience and judges to interact with the presenting group.

- **Judging Criteria:** The judgment is final and will be based on various criteria, including clarity of the idea, presentation skills, depth of content, creativity, and the ability to address questions effectively during the Q&A session.

- **Visual Aids:** Enrich your presentations with visuals like slides, diagrams and charts. Feel free to include working models or prototypes for added impact.

- **Decision Authority:** Judges have the final authority in determining the success of each presentation and will provide feedback accordingly.

- **Note:** In the event of any unforeseen circumstances , the decision of the organizing committee will be treated as the final word.
